- Education
- Logical reasoning
- Goal orientation
- Teamwork
- Adaptability to change
- Stress management

LANGUAGES

Spanish: Native

English: Advance

ABOUT ME

Full Stack Developer with hands-on experience in React, Node.js, SQL/NoSQL, and WordPress, specialized in building administrative web applications, process automation, and e-commerce platforms. I have led projects that improved response times and elevated user experience, combining strong technical expertise with a results-driven mindset. Passionate about innovation, collaborative work, and continuous learning as drivers of professional growth.

PROFESSIONAL EXPERIENCE

Web Analyst – WordPress

LA MUELA S.A.S | 26/05/2025 – 31/03/2026

- As a Web Analyst at La Muela S.A.S, I led the comprehensive management of the company's e-commerce platform, administering and optimizing the online store using WordPress and specialized plugins such as WooCommerce. I executed SEO update and maintenance strategies to improve organic search rankings, working closely with the Grupo Tejada team to ensure a strong user experience and greater digital reach.

Prácticas empresariales:

LA MUELA S.A.S – 13/11/2024 – 12/05/2025.

- Developed two enterprise software solutions as a Full-Stack Developer: an activity management application and a bulk email delivery system, streamlining internal processes and enhancing user experience. Built reactive and admin-focused architectures using JavaScript, React, Node.js, and Express, managing data persistence with MongoDB and later leading a migration to SQL Server to ensure greater scalability and performance.
